FitBuddy

Functional Features in the Solution

Number of functional features: 9

Feature list

1. User input

Enter name, age, weight, fitness goal, and preferred workout intensity.

2. Input validation

Check required fields and valid values before processing.

3. Personalized workout plan

Generate a structured 7-day workout plan based on submitted user details.

4. Daily workout and recovery details

Show daily activities with warm-up, exercise, and recovery guidance.

5. Nutrition or recovery tip

Provide a concise tip related to the user?s selected fitness goal.

6. Feedback-based plan update

Let the user request changes and generate a revised plan.

7. Plan storage and history

Save user details and preserve original and updated plan versions.

8. Results display

Present the generated plan and tip in a readable results page.

9. Coach/admin overview

Allow authorized staff to view users and their saved plan versions.

These nine features are summarized from the FitBuddy solution requirements.
