FitBuddy

Project Demo Planning

Plan for a clear, reliable demonstration of the proposed FitBuddy features

Demo objective

Explain the problem, show how a user generates a 7-day plan, demonstrate a feedback revision, and summarize how saved plans support coach review.

Suggested 6-minute agenda

0:00-0:40 | Introduction

State project name, purpose, target user, and the problem being addressed.

0:40-1:20 | Solution overview

Introduce FastAPI, Gemini, Jinja2, and SQLite and explain the user journey.

1:20-2:10 | Enter user details

Use synthetic demo profile data; show validation and submit the form.

2:10-3:20 | Generate and review plan

Show the 7-day workout plan, daily guidance, and nutrition/recovery tip.

3:20-4:30 | Submit feedback

Request more cardio and an extra rest day; display the revised plan.

4:30-5:10 | Review saved records

Show the original and updated plans in the authorized admin view.

5:10-6:00 | Benefits and closing

Summarize convenience, personalization, limitations, and next steps.

Presenter roles

Presenter 1: introduction and problem. Presenter 2: live application walkthrough. Presenter 3: architecture, benefits, limitations, and closing. Adjust for team size.

Demo profile

Alex Demo, DEMO-001, age 28, weight 72 kg, goal muscle gain, intensity medium.

Timing is a suggested plan. Use sample data only and adapt to the actual working application.
